

An Announcement from the City of Johns Creek and Keep Johns Creek Beautiful

With the emphasis on quality education in our City, we are partnering with Keep Johns Creek Beautiful, a division of Keep North Fulton Beautiful, to develop a unique Evergreen School Program. This program will be tailored to the needs of our students and will help both our public and private schools by providing resources and education designed to be consistent with the Georgia Performance Standards.

Your school can benefit from the Johns Creek Evergreen program through classroom programs such as "RRR Recycling Rangers" for Kindergarten and "Enviroscape-Non Point Source Pollution" for 3rd grade. Additionally, in the 2009-2010 school year, we will have an awards program to recognize our schools' achievements in several areas of environmental sustainability.

We invite you to participate in the Evergreen School Program in the 2009-2010 school year. We will host an orientation session to help familiarize you with the program and learn how you can become involved. The orientation session will be held at City Hall on July 28th from 3:00-4:00 in the afternoon. We encourage school administrators, teachers, PTA Presidents and PTA Environmental Chairpersons to attend. We will continue to inform you of the resources available to you through the Evergreen networking meetings and e-newsletters throughout the year.

We look forward to your participation and a great year ahead.

Sincerely,
